Dynajet 350th

The flexible single-axis trailer. Easy to manoeuvre, light-weight, compact, powerful and well thought out down to the finest detail. Ideal for cleaning professionals, renovators and all users who require the highest performance through a combination of water pressure, water quantity and optimum water temperature. These professional devices are all operated by powerful diesel engines.

- Independent hot water high pressure cleaners for flexible use at any location
- Due its water tank and solid hose drum, the Dynajet 350th is ready for immediate use, no start up time
- Infinitely variable wear resistant pressure adjustment cleaning performance to be perfectly adapted to the object.

Standard scope of supply

Operating hours meter, hand-throttle control, lifting eye, 12 V energy supply socket in the control cabinet, 50m high pressure nose (NW8), and 25m supply hose mounted on a hose drum, 300 litre water tank with gauge and monitoring system, hot water system, safety valve, pressure regulation valve, operating manual

Scope of supply

High pressure cleaning gun with spray wand (total length approx. 800 mm), nozzle carrier and 15° flat jet nozzle, storage box.

Dynajet 350 th

model	Dynajet 350 th
pump type	triplex plunger pump
output per minute	7-16l/min
output per hour	420-960l/h
working pressure	350bar
engine	Kubota 3-cylinder diesel engine
engine power	13kW
engine rotations	3000UpM

engine drive	diesel
engine petrol consumption	7l/h
water temperature	90°C
heating power	1x115
fuel	heating oil
chassis	1 axle
weight	760kg
length	2480mm
width	1720mm
height	1720mm
article number	111480010
