**Dynajet  
 500/800 bar**

Unbeatable mobility and versatility thanks to the single-axis principle when combined with the optimum setup of water pressure, water quantity and perfect hot water temperature.

- Independent hot water high pressure cleaners for flexible use at any location
- Due its water tank and solid hose drum, the Dynajet 500th is ready for immediate use, no start up time
- The water resistant pressure adjustment is infinitely variable, so that the cleaning performance can be ideally adapted to the cleaning object.

#### Standard scope of supply

2x high performance water burner, powerful diesel engine, 12 V socket, high pressure hose (the 500 th type is equipped with a 50m high pressure hose on a hose drum. The 800th type is equipped with 2x 10m high-pressure hoses on a storage drum and 20m remote control cable on a drum) and 25m low-pressure supply hose with hose drum, safety valve, automatic hose pressure drop down system, 1,000 litre (264.55 USgal) water tank, lifting eye, operating manual. Dynajet 800th also come with automatic frost protection and decalcification system

#### Scope of supply

High pressure cleaning gun with spray wand (total length approx. 800 mm), nozzle carrier and 15° flat jet nozzle, storage box.
