FRONT STORAGE TRAY (OPTION)

2017
PERFORMANCE

GTR™ 230

This watercraft is one of the easiest ways to get into the musclecraft scene. It comes with a new and powerful supercharged 230-hp Rotax engine and offers the best value of any performance watercraft.

RIDER CAPACITY

Weight capacity 272 kg

Black & Octane Blue ●

iTC / **iBR** / **CLCS** / **ECO**

DIMENSIONS

Fuel capacity	60 l
Length	3368 mm
Width	1231 mm
Weight (dry)	367 kg
Storage capacity	116.6 l

HULL

Type	GTI
• Medium-sized platform	
• Moderate V hull	
• Forgiving and nimble	

ENGINE

Type	Rotax 1500 HO ACE
Intake system	Supercharged with external intercooler
Displacement	1,494 cc
Cooling	Closed-Loop Cooling System (CLCS)
Reverse system	Electronic iBR
Starter	Electric
Fuel type	95 octane

GTR 230

ENGINE

1,494 cc four-stroke, Rotax with three cylinders in-line and four valves per cylinder

Equipped with Advanced Combustion Efficiency (ACE) technology, this new engine with maintenance-free supercharger and external intercooler is optimized for regular fuel, faster and more powerful than its predecessor, but just as fuel efficient.

iTC™ (Intelligent Throttle Control) system

Operating electronically, this advanced throttle system starts you in neutral for easier dockside starts. It also features activity-specific Touring, Sport and ECO modes that can all be set to accommodate your riding style. The result is a more responsive, more intuitive ride.

iControl® Learning Key®

The programmable Learning Key allows you to limit the performance of the PWC based on rider skill-level.

D-Sea-Bel™ system

Combines a series of resonators and vibration-absorbing components to make Sea-Doo watercraft some of the quietest on the water.

Closed-Loop Cooling System

Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.

FEATURES

iControl

The "Brain" that integrates and controls all systems to create the best possible ride.

Touring mode / Sport mode

Offers a choice between two throttle responses for different riding styles. Touring mode is the default setting offering a more progressive acceleration curve for a more confident ride – ideal for cruising and 2-up riding. Sport mode can be easily activated using the Sport button. It provides all acceleration performance for a more aggressive throttle response.

ECO mode

This iTC function automatically determines the most economical power delivery and sets the optimal RPM for greatest fuel economy.

Touring seat

Ergonomically designed for comfort and great looks providing ultra-plush seating for three – permits rear-facing spotter for watersports.

High-performance VTS (Variable Trim System)

The VTS adjusts the angle of the nozzle to change the behavior of the watercraft and improve parallelism to the water. The high-performance VTS provides pre-set positions for quick settings.

RF D.E.S.S.™ Key

With radio frequency technology and a ball-and-socket design, the Digitally Encoded Security System (D.E.S.S.) key provides riders with easy and quick starts every time.

Off-Throttle Assisted Steering (O.T.A.S.®)

Provides the operator with additional steering effect in off-throttle situations for greater maneuverability.

Interactive Multifunction Digital Information Center

VTS preset, Fuel consumption instant & average, Fuel level, Tachometer, Speedometer, Hour meter, Compass, Clock, Touring mode, Sport mode, ECO mode, F-N-R indicator and more.

Handgrips with palm rest

Seat strap

Sponsons

Elevated fuel filler

Bumpers

Front splash deflector

Wide-angle mirrors

Dual drain plugs

Tow hook

Flush kit

Footwell carpets with Sea-Doo logo pattern

Emergency floating lanyard

Swim platform carpet with Sea-Doo logo

Operator's guide, instructional video and booklet

Rear grab handle

PROPULSION SYSTEM

iBR (Intelligent Brake & Reverse) system

First and only true brake on a watercraft recognized by the U.S. Coast Guard for improving boating safety since 2009. Now in its 2nd generation, the intuitive and improved iBR allows you to stop close to 48 meters sooner¹ for greater peace of mind. All with the squeeze of a lever. And with its electronic reverse, it gives you a level of maneuverability that makes docking easier.

Stainless steel impeller

Delivers improved acceleration, higher top speed and less cavitation.

OPTIONS

Reboarding Ladder

Retractable Ski Pylon

Wakeboard Rack

Depth Finder

Ski Module

X package module (Time / distance to empty, Top / average speed / RPM, Lap timer and Engine temperature)

Sea-Doo Speed Tie™

Dry Bag

Ski Tow Eye

Front Storage Tray

12-Volt Outlet and Installation Kit

Safety Equipment Kit

Bilge Pump Kit

Sandbag Anchor

Fire Extinguisher

Snap-in Fenders and Installation Kit

Sea-Doo Move Trailer

Watercraft Cover

WARRANTY

BRP limited warranty covers the watercraft for two years.
